WASTE SORTING

Pre-sorting furniture with integrated weighing, smart

Our stainless steel sorting furniture measures the quantity of food waste in real time, thanks to an integrated weighing system.

It instantly displays the weight thrown away, with a playful indicator of good or bad practice, and enables data from all the week's services to be tracked.

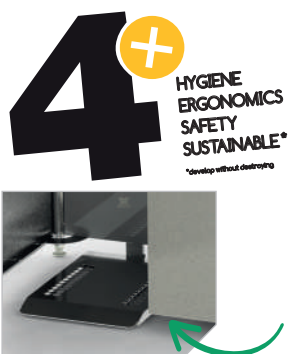

Sorting & weighing

- 1 Information in real time on touch screen
- 2 Display showing the quantity of food thrown away per user with educational indicator
- 3 Lifting ramp for easy handling

Ideal for raising children's awareness in **school canteens**, and a must-have in **collective catering**, this educational tool encourages responsible behavior.

Practical for optimizing menu composition, our sorting furniture helps catering professionals **reduce food waste** and comply with regulations.

- **Sustainable:** Equipment that contributes to the fight against food waste. New design that enables us to maintain the solidity and reliability of the furniture while reducing the environmental impact of the materials used.
- **Hygiene:** Smooth surfaces, radiused edges with no corners or creases, handleless door for efficient cleaning. Lifting scale and optional castors for easy floor cleaning. Scale compatible with floor jet cleaning.

- **Ergonomics:** 5" color touch screen on swivel stand. Intuitive control and programming interface. Lifting ramp for better garbage can access. Configurable full garbage can alert to avoid overloading bags and reduce labor.
- **Safety:** IP44 display, time-stamped and locally stored locally.

ONE FURNITURE, THREE USES: MANAGE, OPTIMIZE, RAISE AWARENESS

Kitchen manager

- **Monitor waste quantities:** by department, by day, by week and year-to-date.
- **Recover data** for use with standard software, and integrate with menu management software (such as Cegid).
- Data logging in the cloud for **multi-site management and exploitation.**

Kitchen staff

- Setting up the waste garbage can.
- **Local settings on color touch-screen:** scale taring, opening and closing of service, acceptable weight of waste per user/weighing.
- **Local consultation and analysis of weekly data.**
- Full garbage can alert.

Public

- **Food waste sorting** in the identified garbage chute.
- **Real-time consultation** of waste weight.
- Iconic indication of acceptable and unacceptable waste quantities.
- **Raising awareness** of food waste.

Pre-sorting furniture with integrated weighing, smart

- AISI 304L stainless steel furniture.
- Top with backrest thickness 15/10th (1.5 mm)
- 20 mm rounded edge, 60 mm work top thickness, welded corners, Including waste disposal holes Ø 165 mm with black rubber rings (on request: red, green, yellow, blue - no added value).
- 30° inclined backsplash (h 100mm x l 20mm, radius 10 mm at base)
- Feet in 38 mm stainless steel tube fixed in stainless steel brackets, with ABS jacks - optional castors.
- Lifting ramp for easy garbage can handling and for moving the unit from one room to another - Ø 38 mm tube with PVC plugs
- 5" color touch screen on swivel mount

- **Integrated stainless steel industrial scale**, suitable for aggressive environments or hygiene requirements:
 - > Lifting scale for easy movement and cleaning of furniture on castors
 - > Sensor with central aluminum fulcrum. IP65 resistance.
 - > Accepts all types of garbage cans (not supplied)
 - > Weight displayed on a 5" color screen.
 - > Wifi link included for data retrieval on all your devices.
- Supplied with 1 TVO "Waste sorting" display panel (choice of one of the 5 below).
- External power supply 220V-240V, 50Hz/60Hz.
